The Chairman's Message

The Nath School of Business and Technology (NSBT) is a dream come true. Thanks to the Delhi-Mumbai Industrial Corridor (DMIC), Chhatrapati Sambhaji Nagar, will witness a new era of industrial growth and create immense opportunities for educated, qualified manpower. NSBT is an initiative to capitalise on this welcome development. The Nath Group as part of social commitment, has been active in the fields of education, agriculture, and rural development. Our vision is to develop a world-class multidisciplinary educational institute where every deserving student will have a place.

I believe real empowerment comes from education, and it is education that brings the change. So friends, be the change and touch the sky.
